

ADULT EDUCATION for SUSTAINABILITY:
COMPETENCES as DEVELOPMENTAL TASK

5P Competences — European partnership that develops a competence framework for sustainable development tailored to the needs of adult education

BASIC IDEA

Education for Sustainable Development (ESD) empowers learners with the knowledge, skills, values and attitudes to face challenges such as climate change, environmental degradation, poverty and inequality. Adult education must play a major role in ESD and requires a competence framework to cope with consequences of the climate change and its impacts on the social and economic systems of countries.

OUTCOMES

- ESD framework model of development tasks
- ESD action-oriented competence framework
- Digital ESD competence framework
- Digital ESD online sustainability related training modules
- European online network and community of practice

Join the 5P community of practice: www.discuss-community.eu

Download the competence framework from: www.5pcomp.eu

Visit the course platform: www.moodle.5pcomp.eu
